

INDEX TO ECOLOGY, VOLUME 57, 1976

A

Abies grandis, 801
Abutilon theophrasti, 169
 Acarina, 1221
 Acclimation, 808, 1297
 Acclimation, seasonal, 509
Acer glabrum, 367
Acer saccharum, 324, 975
Acmaea inessa, 265
 Acrasieae, 380
Acroneuria (Calineuria) californica, 603
 Activity patterns, 485
 Adaptation, 1297
 Adaptation, latitudinal, 509
 Adaptive syndrome, 132
 Adaptive value, 900
 Adegoke, O. S. (ed.), reviewed, 1087
 Afgan, N. H. (ed.), reviewed, 1334
 Africa, 1264
 Alabama, 587
 Alaska, 411, 1015, 1025, 1034
 Alcidae, 177
 Algae, 664, 1015, 1025, 1034, 1076
Andira inermis, 1068
 Allen, E. B., article, 1233
 Allen, T. F. H., review, 402
Alnus sinuata, 367
Ambystoma, 1289
 Amphibian, 1289
 Analysis, frequency response, 99
 Andersen, D. C., article, 552
 Anderson, D. (ed.), reviewed, 1096
 Anderson, N. H., article, 1081
 Andren, A. W., review, 220
 Animal population ecology (book review), 830
Anolis, 985
 Antonovics, J., article, 205
 Ants, 815
 Ants, leaf-cutting, 48
 Aquatics, 353
 Arctic, 1015, 1025, 1034
 Area, 629
 Arizona, 596, 1311, 1317
Armadillidium vulgare, 1179
 Armentano, T. V., article, 360
 Armitage, K. B., article, 552
 Armstrong, R. A., article, 603, 953
 Arthropods, 395
 Arthropod, soil, 88
 Asclepiadaceae, 132
 Aspen, 694
Aspergillus, 953
Asplanchnia sieboldi, 542
 Assimilation, ectotherm, 252
 Atlantic Ocean, 177
 ATP, 707
Atta cephalotes, 48
Atta colombica, 48
 Auclair, A. N., article, 431, 941
 Ausmus, B. S., commentary, 1101
 Australian journal of ecology (journal review), 1096
 Avian community, 773
 Avian energetics (book review), 1332

B

Baboon, 1264
 Bach, C., article, 579
 Bachman, R. W., article, 1076
 Bacteria, 707
 Bahr, L. M., Jr., article, 121
 Bailey, J. A. (ed.), reviewed, 619
 Baird, D. D., article, 1043
 Balon, E. K., reviewed, 218
 Barash, D. P., review, 399
 Bass, 751
 Bats, 587, 1068
 Bats, tropical, 332
 Bazzaz, F. A., article, 169, 1281, 1297
 Beadle, L. C., reviewed, 1086
 Bédard, J., article, 177
 Beetles, cave, 793
 Behavior, crayfish, 751
 Behavior, lizard, 1317
 Behavior, *Microtus*, 224
 Behavior, salamanders, 459
 Belle, G. van, article, 161
 Benke, A. C., article, 915
 Bentley, B. L., article, 815
 Benthic communities, study of (book review), 622
 Berger, A. J., reviewed, 621
 Bergmann's Rule, 679
Betula alleghaniensis, 324, 975
 Biogeochemistry, forest, 110
 Biogeography, 353
 Biomass, desert termites, 1273
 Biomass, forest, 110
 Biomass, ground vegetation, 694
 Biomass, reef, 121
 Birch, 694
 Birds, 290, 509
 Birds, life of (book review), 621
 Birney, E. C., article, 1043
 Black, R., article, 265
 Blackbird, 1195
 Blair, R. M., article, 18
 Blue grama, 762
 Blue-green algae, 1221
 Bluejack oak sandhill, 498
 Bodine, M. C., article, 1273
 Body size, amphibian, 1289
 Body size, lizards, 313
 Body size, predation selection, 858
 Body size, rodents, 728
 Body temperature, 485
 Bogs, 890
 Bokhari, U. G., article, 762
Bombus, 874
 Bouchard, A., article, 941
 Boucot, A., reviewed, 405
 Bradbury, I. K., article, 209
 Bradbury, J. P., article, 1005
 Branson, F. A., article, 1104
 Breeding birds of North Dakota (book review), 1332
 Brick, A., Jr., commentary, 223
 Britain's changing biota (book review), 217
 British Columbia, 63, 900
 British flora, history (book review), 1090
 Brood reduction, 1195
 Bruchids, 826

Brunett, L. E., article, 18
 Budgets, chemical, 649
 Budgets, hydrological, 649
Bufo terrestris, 252
 Bumblebees, 874, 890
 Burgess, R. L., review, 404, 1097
 Buried seed, 801
 Burkhardt, J. W., article, 472
 Burning, prairie, 88
 Buskirk, R. E., article, 1264
 Buskirk, W. H., article, 1264

C

Cacti, 151
 Caddisfly, 1081
 Cadmium, 1311
 Cain, B. W., review, 1333
 Calcium, cycling of, 99
 Calder, W. A., III, review, 621
 California, 3, 141, 265, 485, 531, 603, 728, 995, 1179
 Campbell, G. S., article, 367
 Canada, 302, 353, 841, 941
 Cannibalism, milkweed bugs, 132
 Canonical correlation, 431
 Capsule leaf ratio, 964
 Carnivore, 1081
 Carpenter, F. L., article, 1125
Carya glabra, 707, 720
 Case, T. J., article, 313
 Casey, T. M., article, 485
 Caves, 793
 Cellular slime mold, 380
 Cellulose, 720
Chaoborus trivittatus, 900
 Chaplin, S. J., article, 132
 Chile, 3
 Chlorophyll, 664
 Chlorophyll *a*, 1076
 Classification, vegetation, 520
 Clausen, R. T., reviewed, 831
 Cleland, M. G., article, 1208
Clibanarius tricolor, 579
Clibanarius vittatus, 570
 Climate, and bird sex ratio, 679
 Climatic maps of the continents (book review), 616
 Cline, R. G., article, 367
Clistoronia magnifica, 1081
 Clutch size, 570
 Clutch size, marine snails, 1162
 Coats, R. N., article, 995
 Coche, A. G., reviewed, 218
 Cody, M. L. (ed.), reviewed, 613
 Coexistence, 132, 728, 1208
 Coexistence, fungi, 953
 Coexistence, leafhopper, 928
 Cole, G. A., reviewed, 400
 Coleman, D., commentary, 1101
 Collins, N. E., article, 1221
 Colombia, 132
 Colonization, insects, 395
 Colonizer, 964
 Colony phenology, 874
 Colorado, 552, 1043, 1104
 Commensalism, 570
 Common Grackle, 1195
 Communities, ecology and evolution (book review), 613
 Communities, seabird, 177
 Community, insect, 395

Community diversity, soil arthropod, 88
 Community matrix, 1321
 Community recovery, 1233
 Community structure, 858, 1221, 1233
 Community structure, convergence in, 3
 Community structure, coral, 278
 Competition, 1125
 Competition, amphibian, 1289
 Competition, aquatic plants, 353
 Competition, bees, 874, 890
 Competition, birds, 290
 Competition, fish, 1208
 Competition, food, 459
 Competition, fungi, 953
 Competition, insect, 76
 Competition, interspecific, 224, 238
 Competition, leafhoppers, 928
 Competition, lizard, 531, 985, 1317
 Competition, plant species, 1233
 CO₂ uptake, 411
 Conifers, 339
 Conley, W., article, 224
 Consumers, 1221
 Consumption, 762
 Continuous time, 34
 Control theory, 99
 Copper, 1311
 Convergence, lizard communities, 3
 Coral, 278
 Corduliidae, 915
 Corwin, R., reviewed, 1095
 Costa Rica, 48, 385, 815, 826, 1068
 Cousens, J., reviewed, 1330
 Craig, R. B., review, 212
Crassostrea virginica, 121
 Crayfishes, 751
 Cretaceous, 841
 Cromack, K., commentary, 1101
 Cryptostigmata, 302
 Cushing, C. E., Jr., review, 830
Cynodon dactylon, 205

D

Daley, R. J., article, 1025
Daphnia, 1304
Daphnia pulex, 808
 Davis, C. C., review, 218, 219, 1087, 1096, 1326, 1327, 1328
 Davis, G. (ed.), reviewed, 1328
 Daylength, 374
 Deardorff, D. C., article, 520
 Decomposition, 561, 941
 Decomposition, leaf, 707, 720, 783
 Decomposition, organic matter, 302
 Decomposition rate, dead vegetation, 209
 Deer, white-tailed, 192
 Defense, of space, 1264
 Delany, M. J., reviewed, 214
 Delaware, 380, 773
 del Moral, R., article, 520
 del Moral, R., review, 836
 Demography, 1145
 Demography, *Microtus*, 224
 Dempster, J. P., reviewed, 830
Dendroica, 290
 Density, amphibian, 1289
 Density, warblers, 290
 Derickson, W. K., article, 445

Desert shrubs, 1104
 Detritivore, 1081
 Detritus, 88
 Devasted land, ecology and reclamation (book review), 1328
 Devon Island, Canada, 374
 DeVries, D. A. (ed.), reviewed, 1334
 Diamond, J. M. (ed.), reviewed, 613
 Diatom ecology, 1005
Dictyostelium, 380
 Diel, 740
 Diet, warblers, 290
 Differential equations, 1244
 Diffusion resistance, 367, 975
 Digestive efficiency, 762
 Dinosaur physiology, 841
Dipodomys merriami, 596
 Diptera, 1221
 Discrete time, 38
 Discriminant analysis, 520
 Dispersal, 928
 Dispersion, beetle larvae, 161
 Dispersion, food, 132
 Distribution, aquatic plants, 353
 Distribution, birds, 509
 Distribution, geographical, 928
 Disturbed habitats, 890
 Divergence, in annuals, 169
 Diversity, 290, 431, 941, 1233
 Diversity, fish community, 821
 Dominance, 1233
 Douglass, R. J., article, 346
 Dragonfly, 915
 Drepanididae, 1125
Drosophila, 151
 Duckweed, 353
 Dyer, M. I., article, 762

E

Eastern United States, 679
 Ecological energetics (book review), 1331
 Ecology of Lake Kainji (book review), 1087
 Ecology of small mammals (book review), 214
 Ecosystem, 1244
 Ecosystem, forest, 324
 Ecosystem, pine-hardwood, 18
 Ecosystem, model, 953
 Ecosystem monitoring, 99
 Ecosystem, suburban lawn, 141
 Ecosystem, thermal spring, 1221
Ectophylla alba, 385
 Edgerton, P. J., article, 801
 Edwards, H. W., review, 213
 Edwards, N. T., article, 99
 Egerton, F. N., review, 1094
 Egg size, 1195
 Egler, F. E., commentary, 409
 Egler, F. E., review, 215, 217, 1329
Egria laevigata, 265
 Eisenberg, R. M., article, 380
Elaphe guttata, 252
 Elder, W. (ed.), reviewed, 619
 Emergence of agricultural science: Justis Liebig and the Americans, 1840-1880 (book review), 1094
 Emergent aquatic, 941
 Emlen, J., article, 1162
 Energetics, 1125
 Energetics, bats, 332

Energetics, lawn, 141
 Energetics, mouse, 185
 Energetics, oyster reef community, 121
 Energetics, vertical migration, 900
 Energy, for metabolism, 445
 Energy budget, 252
 Energy budget, birds, 509
 Energy budget, stream, 561
 Energy conservation, deer, 192
 Energy, expended per offspring, 445
 Energy input, agriculture, 431
 Environmental impact assessment (book review), 1095
 Environmental stability, 821
 Environmental and plant ecology (book review), 836
 Ephemeroptera, 199
 Ephryidae, 1221
 Epibenthos, 121
 Epipelic, 1015, 1025, 1034
 Equilibrium biogeography, 629
Equisetum, 941
 Erratum (N. W. Foster and I. K. Morrison, Distribution and cycling of nutrients in a natural *Pinus banksiana* ecosystem. Ecology 57:110-120), 612
 Erratum (L. Haertel, Nutrient limitation of algal standing crops in shallow prairie lakes. Ecology 57:664-678), 1325
Erythroneura, 928
 Estuarine organisms, physiological ecology (book review), 1326

COMMUNICATIONS AND SUBSCRIPTIONS

All **manuscripts** should be submitted to the MANAGING EDITOR (Crawford G. Jackson, Jr., San Diego Natural History Museum, P.O. Box 1390, San Diego, CA 92112). All **books** (and pamphlets) for **review** should be submitted to the BOOK REVIEW EDITOR (Robert L. Burgess, Environmental Sciences Division, Oak Ridge National Laboratory, Oak Ridge, Tennessee 37830). All **material for the COMMENTARY section**, which will be transferred to the ESA BULLETIN starting with Volume 58, No. 1 (Winter 1977), should be submitted to the ESA BULLETIN EDITOR (William E. Hazen, Department of Biology, San Diego State University, San Diego, California 92182).

Subscription price in the United States, \$42.00 net for complete volumes; Canada, Pan-American, and foreign countries add \$2.00 for postage. Parts of volumes are to be had only at the single copy rate. Current single copies, \$7.00. Back volumes, as available, \$50.00 each. Back single issues, \$9.00. All back issues are plus postage. Special rates for active and sustaining members.

Missing numbers will be supplied free when lost in the mails if written notice is received by Duke University Press within one month of the date of issue of next succeeding number.

Remittances for nonmember and institutional subscriptions should be made payable to Duke University Press (Box 6697, College Station, Durham, N.C. 27708).

Remittances for dues should be made payable to the ECOLOGICAL SOCIETY OF AMERICA.

Business correspondence, including nonmember and institutional subscriptions, change of address, back numbers, missing numbers, and discontinuances, should be addressed to Circulation Office, Duke University Press, Box 6697, College Station, Durham, N.C. 27708.

Correspondence regarding member subscriptions and payment of dues in the ECOLOGICAL SOCIETY OF AMERICA should be addressed to the Business Manager, Ralph E. Good, Department of Biology, Rutgers University, Camden, New Jersey 08102.

Requests for permission to use copyrighted material should be directed to the Permissions Editor, Duke University Press, Box 6697, College Station, Durham, N.C. 27708.

STATEMENT OF OWNERSHIP AND MANAGEMENT

ECOLOGY is published six times per year: Winter, Early Spring, Late Spring, Summer, Late Summer and Autumn by Duke University Press. The Office of Publication and the General Business Office are located at Duke University Press, Post Office Box 6697 College Station, Durham, North Carolina 27708. The Publisher is the Ecological Society of America. The Managing Editor is Crawford G. Jackson, Jr., San Diego Natural History Museum, P.O. Box 1390, San Diego, California 92112. The Business Manager is Ralph E. Good, Department of Biology, Rutgers University, Camden, New Jersey 08102. The Owner is The Ecological Society of America, Post Office Box 6697 College Station, Durham, North Carolina 27708. The Ecological Society of America is a nonprofit organization incorporated under the laws of Wisconsin in 1915. There are no bond holders, mortgagees, or other security holders. Second-class postage paid at Durham, N.C., and additional offices.

EXTENT AND NATURE OF CIRCULATION. Average number of copies of each issue during preceding twelve months: total number of copies printed, 9500; sales through dealers and carriers, street vendors and counter sales, 0; paid mail subscriptions, 8799; total paid circulation, 8799; samples, complimentary, and other free copies, 37; returns from news agents, 0; total distribution, 8836; office use, left over, unaccounted, spoiled after printing, 664; total, 9500. Actual number of copies of single issue published nearest to filing date: same as above.

TABLE OF CONTENTS, Volume 57, 1976

| | |
|--|----------|
| HUFSTADER, R. W. Commentary—On certification for ecologists | 1-2 |
| FUENTES, EDUARDO R. Ecological convergence of lizard communities in Chile and California | 3-17 |
| BLAIR, ROBERT M., AND LOUIS E. BURNETT Phytosociological changes after timber harvest in a southern pine ecosystem | 18-32 |
| LEWIS, E. R. Applications of discrete and continuous network theory to linear population models | 33-47 |
| ROCKWOOD, LARRY L. Plant selection and foraging patterns in two species of leaf-cutting ants (<i>Atta</i>) | 48-61 |
| HUNT, GEORGE M., JR., AND MOLLY WARNER HUNT Gull chick survival: The significance of growth rates, timing of breeding and territory size | 62-75 |
| RATHCKE, BEVERLY J. Competition and coexistence within a guild of herbivorous insects | 76-87 |
| LUSSENHOP, JOHN Soil arthropod response to prairie burning | 88-98 |
| SHUGART, H. H., JR., D. E. REICHLE, N. T. EDWARDS, AND J. R. KERCHER A model of calcium-cycling in an east Tennessee <i>Liriodendron</i> forest: Model structure, parameters and frequency response analysis | 99-109 |
| FOSTER, N. W., AND I. K. MORRISON Distribution and cycling of nutrients in a natural <i>Pinus banksiana</i> ecosystem | 110-120, |
| erratum | 612 |
| BAHR, LEONARD M., JR. Energetic aspects of the intertidal oyster reef community at Sapelo Island, Georgia (USA) | 121-131 |
| ROOT, RICHARD G., AND STEPHEN J. CHAPLIN The life-styles of tropical milkweed bugs, <i>Oncopeltus</i> (Hemiptera: Lygaeidae) utilizing the same hosts | 132-140 |
| FALK, JOHN HOWARD Energetics of a suburban lawn ecosystem | 141-150 |
| HEED, WILLIAM B., WILLIAM T. STARMER, MARY MIRANDA, MARTIN W. MILLER, AND HERMAN J. PHAFF An analysis of the yeast flora associated with cactiphilic <i>Drosophila</i> and their host plants in the Sonoran Desert and its relation to temperature and tropical associations | 151-160 |
| TSCHINKEL, WALTER R., AND GERALD VAN BELLE Dispersal of larvae of the tenebrionid beetle, <i>Zophobas rugipes</i> , in relation to weight and crowding | 161-168 |
| PICKETT, S. T. A., AND F. A. BAZZAZ Divergence of two co-occurring successional annuals on a soil moisture gradient | 169-176 |
| BÉDARD, JEAN Coexistence, coevolution and convergent evolution in seabird communities: A comment | 177-184 |
| FRENCH, ALAN R. Selection of high temperatures for hibernation by the pocket mouse, <i>Perognathus longimembris</i> : Ecological advantages and energetic consequences | 185-191 |
| MOEN, AARON N. Energy conservation by white-tailed deer in the winter | 192-198 |
| HORST, THOMAS J. Population dynamics of the burrowing mayfly <i>Hexagenia limbata</i> | 199-204 |
| WU, LIN, AND JANIS ANTONOVICS Experimental ecological genetics in <i>Plantago</i> II. Lead tolerance in <i>Plantago lanceolata</i> and <i>Cynodon dactylon</i> from a roadside | 205-208 |
| BRADBURY, IAN K., AND G. HOFSTRA Vegetation death and its importance in primary production measurements | 209-211 |
| BRICK, AL, JR. Commentary—A view from the stable | 223 |
| CONLEY, WALT Competition between <i>Microtus</i> : A behavioral hypothesis | 224-237 |
| FRASER, DOUGLAS F. Coexistence of salamanders in the genus <i>Plethodon</i> : A variation of the Santa Rosalea theme | 238-251 |
| SMITH, GARY C. Ecological energetics of three species of ectothermic vertebrates | 252-264 |

| | | |
|--|--|---------|
| BLACK, ROBERT | The effects of grazing by the limpet, <i>Acmaea insessa</i> , on the kelp <i>Egregia laevigata</i> , in the intertidal zone | 265-277 |
| LOYA, Y. | Recolonization of Red Sea corals affected by natural catastrophes and man-made perturbations | 278-289 |
| MORSE, DOUGLASS H. | Variables affecting the density and territory size of breeding spruce-woods warblers | 290-301 |
| MITCHELL, MYRON J., AND DENNIS PARKINSON | Fungal feeding of oribatid mites (Acari: Cryptostigmata) in an aspen woodland soil | 302-312 |
| CASE, TED J. | Body size differences between populations of the chuckwalla, <i>Sauromalus obesus</i> | 313-323 |
| SMITH, WILLIAM H. | Character and significance of forest tree root exudates | 324-331 |
| MENAB, BRIAN K. | Seasonal fat reserves of bats in two tropical environments | 332-338 |
| FETCHER, NED | Patterns of leaf resistance to lodgepole pine transpiration in Wyoming | 339-345 |
| DOUGLASS, RICHARD JAMES | Spatial interactions and microhabitat selections of two locally sympatric voles, <i>Microtus montanus</i> and <i>Microtus pennsylvanicus</i> | 346-352 |
| KEDDY, PAUL A. | Lakes as islands: The distributional ecology of two aquatic plants, <i>Lemna minor</i> L. and <i>L. trisulca</i> L. | 353-359 |
| ARMENTANO, T. V., AND G. M. WOODWELL | The production and standing crop of litter and humus in a forest exposed to chronic gamma irradiation for twelve years | 360-366 |
| CLINE, RICHARD G., AND GAYLON S. CAMPBELL | Seasonal and diurnal water relations of selected forest species | 367-373 |
| TEERI, J. A. | Phytotron analysis of a photoperiodic response in a high arctic plant species | 374-379 |
| EISENBERG, ROBERT M. | Two-dimensional microdistribution of cellular slime molds in forest soil | 380-384 |
| TIMM, ROBERT M., AND JEANNE MORTIMER | Selection of roost sites by Honduran white bats, <i>Ectophylla alba</i> (Chiroptera: Phyllostomatidae) .. | 385-389 |
| SANTOS, MIGUEL A. | Prey selectivity and switching response of <i>Zetzellia mali</i> | 390-394 |
| SIMBERLOFF, DANIEL | Trophic structure determination and equilibrium in an arthropod community | 395-398 |
| EGLER, FRANK E. | Commentary—How to get out a book, easily, and acquire a library of reprints, free | 409-410 |
| MILLER, PHILIP C., WAYNE A. STONER, AND LARRY L. TIESZEN | A model of stand photosynthesis for the wet meadow tundra at Barrow, Alaska .. | 411-430 |
| AUCLAIR, ALLAN N. | Ecological factors in the development of intensive-management ecosystems in the midwestern United States | 431-444 |
| DERICKSON, W. KENNETH | Ecological and physiological aspects of reproductive strategies in two lizards | 445-458 |
| FRASER, DOUGLAS F. | Empirical evaluation of the hypothesis of food competition in salamanders of the genus <i>Plethodon</i> | 459-471 |
| BURKHARDT, J. WAYNE, AND E. W. TISDALE | Causes of juniper invasion in southwestern Idaho | 472-484 |
| CASEY, TIMOTHY M. | Activity patterns, body temperature and thermal ecology in two desert caterpillars (Lepidoptera: Sphingidae) | 485-497 |
| VENO, PATRICIA ANN | Successional relationships of five Florida plant communities | 498-508 |
| KENDEIGH, S. CHARLES | Latitudinal trends in the metabolic adjustments of the house sparrow | 509-519 |
| DEL MORAL, ROGER, AND DAVID C. DEARDORFF | Vegetation of the Mima Mounds, Washington state | 520-530 |
| ROSE, BARBARA R. | Habitat and prey selection of <i>Sceloporus occidentalis</i> and <i>Sceloporus graciosus</i> | 531-541 |

| | |

| INDEX FOR VOLUME 57 | 1341-1350 |

Instructions to Authors

The pages of *ECOLOGY* and *ECOLOGICAL MONOGRAPHS* are open to research papers dealing with all aspects of ecology and to discussions and essays that develop ecological theory. All papers must be in English.

ECOLOGY considers papers up to 20 printed pages long, including illustrations. *ECOLOGICAL MONOGRAPHS* handles papers which initially are estimated as longer than 20 pages. Three pages of typescript equal approximately one printed page. Illustrations and tabular material together may constitute up to 20% of the total printed pages. Extensive tabular data too raw or costly to publish can be made available to readers through microfilm or microfiche services.

Manuscripts should be submitted to the Managing Editor. Authors will be notified of receipt of the manuscript. A designated subject-matter editor is responsible for review and acceptance or rejection of the manuscript. Technical correspondence concerning the manuscript may be directed to that editor. Turnaround time for manuscripts is usually a minimum of 90 to 120 days after receipt by the Managing Editor's Office. Delays in obtaining reviews may prolong this period. If a manuscript is returned for revision, the author should submit his revised manuscript to the subject-matter editor within 6 months. Manuscripts undergoing revision for longer than 6 months may (at the discretion of the subject-matter editor) be considered as new manuscripts and submitted again to review. The author should provide a forwarding address if he moves from the return address shown on his manuscript. American authors must specify zip code designations. *The CBE Style Manual, Third Edition*, available from the American Institute of Biological Sciences for \$6.00, is recommended for details of style. **Manuscripts that do not conform in most respects to the instructions below will be returned to authors for correction before consideration.** Fewer than a third of manuscripts received can be printed.

PREPARATION OF MANUSCRIPT

Write with precision, clarity, and economy; use the active voice and first person whenever appropriate. Every sentence should convey the exact truth as simply as possible.

Type all material (text, tables, quotations, footnotes, literature cited, etc.) **double spaced**, on only one side of standard sized paper approximately 21 by 28 cm. Leave ample margins. Do not use very thin paper, even though overseas mailing is required.

Send the original manuscript **plus at least two copies**. The original and copies must include illustrations. Photocopies are preferable to carbons. Retain at least one complete copy of the manuscript in your files. **DO NOT** submit original India-ink figures due to the risk of loss or damage in the mails.

Titles of articles should be informative and short, usually not more than 10 words. A **running head** not longer than 40 spaces should be provided when the title exceeds this length. Titles with numerical series designations will not be accepted.

Each paper must include an abstract immediately following the title and author's name. Abstracts should record succinctly the essential findings, i.e., they should be informative rather than indicative. Do not include details of methods and results. Tables of contents and terminal summaries are no longer printed. Include, following the abstract, a **list of 6-12 key words** for indexing.

Do not underline any words except scientific names.

Avoid footnotes; most footnote material can be incorporated in the text to the benefit of readers, editors, and printers.

Acknowledgments, if extensive, should be placed under a heading just before the Literature Cited.

Literature Cited must be double spaced. Before submitting the manuscript, check each citation in the text against the Literature Cited to see that they are in agreement. The listing should conform in sequencing and punctuation to that in current issues. Consult the *CBE Style Manual* for details.

Authors are to use the metric system for measurements.

Tables must each be **typed double spaced on separate sheets**. Number tables consecutively and give each a short title. Do not rule tables unless essential to avoid ambiguity. Consult recent issues of the journal for style. Never repeat the same material in figures and tables; when either is equally clear a figure is preferable. Avoid unnecessary material, especially tables and long lists of little interest save to the author; this material will be edited rigorously.

Algebraic symbols will appear in italics in print. Formulae to be set separately from the text should not exceed the width of one column. If longer the editors will break the formula into two or more lines. Authors should write their formulae with this in mind and indicate where each formula may be broken. Subscripts and superscripts should be clarified by marginal notes, and subscripts of subscripts should be avoided. The author can insure the accuracy of his formulae and simplify the job of the editor and printer by grouping formulae and preparing them as a figure.

Text figures generally should not exceed 21 × 30 cm. High contrast photographic copies of line drawings, maps, and graphs are essential. Most illustrations will be reduced to a single-column width: letter meticulously using letters large enough to leave characters at least 1 mm high after reduction. *Typewritten lettering within the body of figures is not acceptable.* On figures to be reproduced at single-column width, the height of the lettering should never be less than 1.5% (nor more than 3%) of the width of the figure. Capital letters take reduction better than lowercase. Photographs should be printed for contrast, on glossy paper, unmounted or mounted on light cardboard.

GALLEY PROOF AND REPRINTS

Correct (*not* revise) both sets of proof identically, retain one, and return one promptly, **with the edited manuscript**, to the Managing Editor. Mail the reprint order form, showing whether reprints are desired, to the Printer as directed.
